For sale by the Superintendent of Documents, U.S. Government Printing Office, Washington 25, D.C.,  
or any of the Field Offices of the Department of Commerce. Price \$6.50

## PREFACE

This is one of a series of volumes presenting final results of the 1958 Census of Business. Statistics for Selected Services are contained in two volumes—Volume VI and this volume. The 1958 Census of Business, covering Selected Services, Retail Trade, Wholesale Trade, and Public Warehousing, was authorized by law under Title 13 U.S.C. Previous Business Censuses covered the years 1929, 1933, 1935, 1939, 1948, and 1954.

The cooperation of the Bureau of Old-Age and Survivors Insurance of the Department of Health, Education and Welfare and the Internal Revenue Service of the Treasury Department in permitting use of certain of their records was important to the conduct of the 1958 Census of Business. This cooperation made it possible to conduct the Census at a materially lower cost than would otherwise be the case and also made it unnecessary for a large number of business establishments to prepare special Census reports.

The Bureau of the Census also acknowledges the advice and counsel made available through the Census Advisory Committees of the following organizations during the planning phase of the Census: the American Marketing Association; the American Retail Federation; the American Statistical Association; the Newspaper Advisory Committee, composed of representatives from the major associations in the newspaper industry; and similar assistance from many other private and public organizations. The Bureau also wishes to acknowledge the excellent cooperation of business firms in completing the required Census forms.

Timely publicity given to the Business Census by chambers of commerce, business organizations, trade papers, local newspapers, and television and radio stations aided greatly in informing businessmen of the nature and objectives of the census and facilitated the collection of Census reports.

Primary responsibility for the 1958 Census of Business program was centered in the Business Division of the Bureau of the Census, under the direction of Harvey Kailin, Chief, and Louis Greenberg, Assistant Chief, Programs. The Census program was under the direct supervision of Henry Wulff, Chief of the Census Program Branch. Maurice Haven was Chief of the Selected Services Section. He was assisted by Anna C. Miller, Joseph E. Quillen, Alexander Shapiro, Conrad L. Alexander, and Allan R. Jones. Staff assistance was provided by Ralph S. Woodruff, Assistant Division Chief, Research and Methodology, Frank A. Cirillo, Chief, County Business Patterns and Special Surveys Branch, and Max Shor, Chief, Program Research Branch.

Processing of the 1958 Census of Business reports was performed in the Economic Operations Division under the direction of M. D. Bingham, Chief. The processing was under the direct supervision of Irving Weiss, Assistant Chief, Processing, assisted by Max E. Van Horn, Charles Merzel, Donald E. Young, Wesley R. Grier, Bernard M. Kinney, and Ruth H. Mills. Systems and procedures were developed and supervised by Sol Dolleck, Assistant Chief, Systems, assisted by Samuel Schweid, Nathan Lesowitz, and Jack Margolis. Jack Scharff developed and supervised the electronic computer programming work, assisted by John S. Lannan. Quality control plans and procedures were developed and supervised by Herman H. Fasteau, assisted by George Minton, and Alfred J. McKeon. Scheduling, progress reporting, and related staff work were supervised by Wilbur J. Mathias and Margaret R. Rommel.

The Electronic Systems Division under Robert F. Drury, Chief, provided electronic computation services. Rudolph M. Micoly and James W. Shores supervised the scheduling and operation of equipment; Edgar D. Morgan and William M. Gaines supervised equipment engineering and maintenance; and Mrs. Dorothy P. Armstrong supervised general-purpose computer programming activities.

Other divisions and offices of the Bureau which contributed to the various phases of the census were: (1) the Machine Tabulation Division, C. F. Van Aken, Chief; Joseph S. Pewterbaugh and Emil Gorgovits developed techniques and procedures and Frank McGrath, assisted by Emma Gass, supervised the card punching; (2) the Geography Division, William T. Fay, Chief; Robert Klove and Robert Hagan, Assistant Chiefs, assisted by Toshi Toki, supervised the preparation of the maps and charts and participated in the devising of procedures for geographic allocation of reports; (3) the Administrative Service Division, Everett H. Burke, Chief; Robert H. Brooks, Chief, Graphics Branch, was responsible for preparing Census of Business publications for reproduction; (4) the Statistical Reports Division, Edwin D. Goldfield, Chief, and William Lerner, Assistant Chief; Sheldon Klein, Chief, Presentation Practices Branch, and Julia Moring reviewed all table forms and text material and assisted on publication problems; (5) the Office of the Chief Economic Statistician, Julius Shiskin; Harold T. Goldstein was responsible for the preparation of kind-of-business coding manuals; (6) the Bureau of the Census Operations Office at Jeffersonville, Ind., Robert D. Krook, Executive Officer, where many of the Census processing operations were conducted; (7) the Personnel Division, James P. Taff, Chief; and (8) the Budget and Management Division, Charles H. Alexander, Chief.

# 1958 CENSUS OF BUSINESS FINAL REPORTS

## Volume I. RETAIL TRADE-SUMMARY STATISTICS

### Chapter

1. United States Summary.
- \*2. Sales Size.
- \*3. Employment Size.
- \*4. Single Units and Multiunits.

\*Also issued as separate reports in series BC58-RS.

### Chapter

- \*5. Legal Form of Organization.
6. Miscellaneous.
- \*7. Alaska and Hawaii.

## Volume II. RETAIL TRADE-AREA STATISTICS

United States summary and separate chapters for each State, the District of Columbia, Alaska, Hawaii, Guam, and the Virgin Islands showing, by kind of business, data on number of establishments, sales, payroll, personnel, and number of proprietors. Detailed kind-of-business data are provided for each State, for each

standard metropolitan statistical area, and for each county and city with 500 or more retail establishments. In addition, data for less detailed kind-of-business groupings are shown for all counties and for each city of 2,500 or more inhabitants. (Chapters also are issued as separate reports in series BC58-RA.)

## Volume III. WHOLESALE TRADE-SUMMARY STATISTICS-AND PUBLIC WAREHOUSING

### Chapter

1. United States Summary.
- \*2. Sales Size and Employment Size.
- \*3. Receivables and Bad-Debt Losses.
- \*4. Sales by Class of Customer.
5. Legal Form of Organization.

\*Also issued as separate reports in series BC58-WS.

### Chapter

- \*6. Commodity-Line Sales.
- \*7. Petroleum Bulk Stations and Terminals.
8. Miscellaneous.
- \*9. Alaska and Hawaii.
- \*10. Public Warehousing.

## Volume IV. WHOLESALE TRADE-AREA STATISTICS

United States summary and separate chapters for each State, the District of Columbia, Alaska, Hawaii, Guam, and the Virgin Islands showing, by kind of business, data on number of establishments, sales, payroll, personnel, and number of proprietors. Detailed kind-of-business data are provided for each State, for each standard metropolitan statistical area, and for each county with 100 or more wholesale establishments. Less detailed data are shown

for all counties and each city of 5,000 inhabitants. For each State, additional data on number of establishments and sales are shown for merchant wholesalers, manufacturers' sales branches and sales offices, merchandise agents and brokers, and for all other wholesale types combined. (Chapters also are issued as separate reports in series BC58-WA.)

## Volume V. SELECTED SERVICES-SUMMARY STATISTICS

### Chapter

1. United States Summary.
- \*2. Receipts Size.
- \*3. Employment Size.
- \*4. Single Units and Multiunits.
- \*5. Legal Form of Organization.
- \*6. Hotels; Motels and Tourist Courts.

\*Also issued as separate reports in series BC58-SS.

### Chapter

- \*7. Power Laundries, Cleaning and Dyeing Plants, and Related Services.
- \*8. Motion Pictures.
9. Miscellaneous.
- \*10. Alaska and Hawaii.

## Volume VI. SELECTED SERVICES-AREA STATISTICS

United States summary and separate chapters for each State, the District of Columbia, Alaska, Hawaii, Guam, and the Virgin Islands showing, by kind of business, data on number of establishments, receipts, payroll, personnel, and number of proprietors. Detailed kind-of-business data are provided for each State, for each

standard metropolitan statistical area, and for each county and city with 200 or more service establishments. In addition, data for less detailed kind-of-business groupings are shown for all counties and for each city of 2,500 or more inhabitants. (Chapters also are issued as separate reports in series BC58-SA.)

## Volume VII. CENTRAL BUSINESS DISTRICT REPORTS

Central business district (CBD) statistics are published in a series of separate reports for each of 97 selected standard metropolitan statistical areas (SMSA's) and a summary report; designated as Volume VII. Each individual CBD report provides data for central business districts in the specified cities having 100,000 or more inhabitants and for major retail centers in the SMSA covered, as well as for the central city, the central city exclusive of the

central business district, the SMSA exclusive of the central business district. Each report contains comparative 1958 and 1954 data on number of establishments, volume of sales (or receipts), and annual payroll, and 1958 employment for all retail stores and about 25 kinds of retail business, and for hotels and motion picture theaters. (Reports are issued in series BC58-CBD.)

# CONTENTS OF THIS VOLUME

Arabic page numbers in this volume are keyed primarily to chapter numbers by page. Thus page 1-5 is page 5, Chapter 1 (United States Summary); page 3-32 is page 32 in Chapter 3 (Employment Size).

|   | <u>Page</u> |
|---|-------------|
| Introduction.....                                       | 1           |

# INTRODUCTION

## AUTHORITY AND SCOPE

The 1958 Census of Business along with the 1958 Censuses of Manufactures and Mineral Industries was required by law under 13 U.S.C., sections 131 and 224. These Censuses covered businesses operated in the continental United States, Alaska, Hawaii, Guam, and the Virgin Islands. A separate Census of Business and Manufactures for 1958 was also conducted in Puerto Rico, jointly with the Commonwealth Government.

The 1958 Census of Business covered Selected Services, Retail Trade, Wholesale Trade, and Public Warehousing. This report provides findings for that portion of the 1958 Census of Business which relates to the Selected Services. The figures in this report supersede those issued previously in Preliminary Reports, Series BC58(P)-SA.

## KINDS OF SERVICE BUSINESS COVERED

This report covers establishments in Selected Services in accordance with the principles of the 1957 edition of the *Standard Industrial Classification (SIC) Manual*, issued by the Bureau of the Budget, Executive Office of the President, which defines the Services Division as including establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. The SIC includes 14 major groups in the Services Division, of which 7 are included in the 1958 Census of Business, essentially in their entirety, as follows:

70. Hotels, roominghouses, camps, and other lodging places, except SIC Industries 702, "Rooming and Boarding Houses," and 704, "Organization Hotels and Lodging Houses, on Membership Basis."
72. Personal services.
73. Miscellaneous business services.
75. Automobile repair, automobile services, and garages.
76. Miscellaneous repair services.
78. Motion pictures.
79. Amusement and recreation services, except motion pictures. Symphony orchestras, ballet and opera companies, and similar services organized on a nonprofit basis are included. However, establishments in this group which are operated to provide recreation facilities for their own members and which are exempt from payment of Federal income tax under the provisions of Sec. 501 of the International Revenue Code are not included.

The following major groups in the Services Division of the SIC are not included in the 1958 Census of Business:

80. Medical and other health services.
81. Legal services.
82. Education services.

84. Museums, art galleries, and botanical and zoological gardens.
86. Nonprofit membership organizations.
88. Private households.
89. Miscellaneous services.

This report does not include data for administrative offices, warehouses, and other units which service and are auxiliary to establishments of the same organization. Data for these units will be included in later reports. (See Kind-of-Business Classifications for definitions of the kind-of-business categories for which data are shown in this report.)

## METHOD OF ENUMERATION

For purposes of coverage in the 1958 Census of Business, service establishments were divided into two categories--those with some paid employment during 1958, i.e., the "employer" universe; and those with no paid employment during 1958, i.e., the "nonemployer" universe. The method of obtaining Census information for these two groups is described below:

Enumeration of "Employers."--Information for establishments in this part of the Selected Services was obtained by means of a mail canvass. Report forms were mailed to all business firms included in the active records of the Internal Revenue Service as subject to payment of Federal Insurance Contributions Act (FICA) taxes (i.e., employers of one or more persons) and which were classified in the records of the Bureau of Old-Age and Survivors Insurance (BOASI) as wholly or partially engaged in retail, wholesale, manufacturing, mineral industries, in major groups 70 (except 702 and 704), 72, 73, 75, 76, 78, and 79 of the Services Division of the SIC, and in public warehousing, SIC major group 42, except 421. In addition, report forms were mailed to all establishments which BOASI had not classified by kind of business. Each establishment was mailed a report form appropriate to its BOASI classification (for those cases for which BOASI classification had not yet been established, a general purpose form was used) but its Census classification was determined by replies to questions on the Census report form.

Enumeration of "Nonemployers."--This group was defined to include service businesses other than those represented in the active FICA records of the Internal Revenue Service. Information for this group of establishments was derived from the 1958 Federal income tax returns by using one-half of these cases and multiplying the findings by two. The "nonemployer" segment of the Selected Services, although made up of a large number of establishments, accounted for about 10 percent of the total receipts of the Selected Services.

Included in this segment were only those nonemployer establishments which reported a sales volume of \$1,000 or more during 1958. Establishments reporting a sales

volume of less than \$1,000 were not included in these tabulations, regardless of the period of time they were operated during the year.

#### COMPARISON OF THE 1954 AND 1958 CENSUSES

In all major respects, the 1954 and 1958 Censuses were conducted under similar conditions and procedures. Strict comparability in the data for the two Censuses is limited by the following factors:

1. The physical area of a number of urban places in the 1958 Census is not the same as it was in 1954 because of annexations and other boundary changes which have occurred since the 1954 Census. This factor should be taken into consideration in evaluating changes in census findings from 1954, as in each census the statistics for urban places are in accordance with the boundaries for those places in the Census year.

2. Revisions made in the 1957 edition of the *SIC Manual* have necessitated the following changes in establishment classifications used in the 1954 Census:

(a) "Rebuilding and Retreading of Tires for the Trade," part of SIC Industry 7534, and "Children's and Professionals' Dancing Schools," part of SIC Industry 7911, have been added to the coverage in 1958 although not included in 1954.

(b) The following SIC industries, all of which were included in 1954, are not included in 1958 since their new industry classifications place them in other divisions:

| <i>Title</i>   | <i>SIC Industry No.</i> |
|--|-------------------------|
| Dressmaking shops.....   | 5671 part               |
| Contract mail carriers.....  | 4212 part               |
| Maintenance of carrier owned auto<br>passenger transportation..... | 4172 part               |
| Aircraft repair .....  | 4582 part               |
| Machine shop repair .....  | 3591 part               |
| Shopping news services .....                                       | 2711 part               |

3. Both the 1954 and 1958 Censuses excluded those businesses with no paid employment which had receipts volume of less than \$1,000 in the census year. To the extent that price increases since 1954 resulted in increases in the dollar volume of receipts, the 1958 Census includes some establishments which would not have been included in the 1954 Census. While the exact magnitude of this phenomenon is unknown, the effect on total volume of receipts undoubtedly is only a fraction of 1 percent and probably has little effect on the number of establishments included in the Census.

#### CENSUS DISCLOSURE RULES

In accordance with Census law, any data which would disclose the operations of an individual establishment or business organization are not published. The number of establishments in a kind of business is not considered a disclosure by these rules, so that this item is shown in instances where other items of information for the same kind of business or locality are suppressed.

## SUMMARY OF FINDINGS

The major findings of the 1958 Census of Selected Services are summarized below. The 1958 data are comparable, in general, with those for 1954. The few instances of non-comparability are noted in the COMPARISON OF THE 1958 AND 1954 CENSUSES section of the Introduction and should be taken into consideration in making comparisons between the two censuses.

### GENERAL SUMMARY

There were 975,250 separate places of business, with total receipts of some \$32,376 million, within the scope of the 1958 Census of Selected Services. The 442,584 of these which had payroll, representing 45.4 percent of the total number, accounted for 89.6 percent of all receipts. These establishments paid out \$9,006 million in wages and salaries during the year. For the workweek which ended nearest November 15, 1958, they had 2,889,183 employees on the payroll of whom 2,506,508, or 86.8 percent, were reported as full workweek employees. In addition, unincorporated businesses had 991,817 proprietors.

The average receipts of establishments with payroll in the Selected Services Census were about 10 times as great as the average for establishments without payroll (see table A) varying from a low of \$42,406 for the "miscellaneous repair services" group to a high of \$172,286 for the "miscellaneous business services" group. The average for the latter group is heavily weighted by one kind of business, "advertising agencies," which accounted for 46 percent of the total receipts of the group, and had average receipts of over \$1 million. The average size of establishments without payroll in the "personal services" group was \$5,193, a lower average than for any other kind-of-business group.

Table A.—AVERAGE ANNUAL RECEIPTS OF SELECTED SERVICE TRADE ESTABLISHMENTS WITH AND WITHOUT PAYROLL, BY MAJOR KIND-OF-BUSINESS GROUPS—UNITED STATES: 1958

| Major kind-of-business group                                     | Average annual receipts of establishments— |                              |
|--|--|------------------------------|
|  | With payroll<br>(dollars)                  | Without payroll<br>(dollars) |
| Selected services, total . .                                     | 65 526                                     | 6 336                        |
| Hotels, motels, tourist courts, camps . . . . .                  | 74 706                                     | 7 499                        |
| Personal services . . . . .                                      | 34 143                                     | 5 193                        |
| Miscellaneous business services . .                              | 172 286                                    | 6 855                        |
| Auto repair, auto services, garages . . . . .                    | 50 788                                     | 9 048                        |
| Miscellaneous repair services . . .                              | 42 406                                     | 6 339                        |
| Motion pictures . . . . .  | 137 242                                    | 9 508                        |
| Amusement, recreation services, except motion pictures . . . . . | 63 946                                     | 6 855                        |

Although accounting for more than one-half of the establishments, the nonpayroll cases in the Selected Services covered by the census contributed only one-tenth of the total receipts (see table B). In some groups, however, establishments without payroll accounted for a considerably larger proportion of total receipts. In the "miscellaneous repair services" group, 74 percent of the establishments had no payroll; these establishments accounted for 30 percent of the receipts of all establishments in that group. In "radio, television repair," one of the kinds of business in this group, almost 79 percent of the establishments, accounting for 40 percent of the receipts of all establishments in the kind of business, had no payroll. In "barber shops," 64 percent of the establishments had no payroll and these establishments accounted for over 39 percent of the receipts of all barber shops. At the other extreme, the number of establishments without payroll classified as "motion picture theaters," "bowling establishments," "linen supply," "cleaning, dyeing plants" was less than 10 percent of the total number.

### STATE DISTRIBUTION

All States showed sizable increases in Selected Services receipts since 1954, varying from a 76.5 percent increase in Arizona to an 18.9 percent increase in Rhode Island (table E). However, the ranking of the States by volume of receipts showed very little change. New York State, which accounted for one-fifth of the total Selected Services receipts in the country, was still first while Vermont, with less than one-half of one percent of the total, was last (table F). Figure 1 illustrates the volume of Selected Services receipts by States in 1958 and 1954.

### COUNTY DISTRIBUTION

Table G presents receipts data for 1958 and 1954 for the 50 counties with the largest volume of Selected Services receipts in 1958.

With 3 exceptions, Maricopa County in Arizona and Santa Clara and Orange Counties in California, the 50 counties with the largest volume of receipts in 1958 were the same as in 1954. Maricopa County, which ranked 53d in 1954, was 39th in 1958; Santa Clara County moved from 60th to 48th; and Orange County from 90th to 49th. The positions of the top five counties, New York County, N.Y.; Cook County, Ill.; Los Angeles County, Calif.; Wayne County, Mich.; and Philadelphia County, Pa., were the same in both censuses.

### STANDARD METROPOLITAN STATISTICAL AREAS

Table H below presents changes in receipts from 1954 to 1958 for personal service establishments; and auto repair, auto services, and garages for the 25 standard metropolitan statistical areas (SMSA's) with the greatest volume of retail sales in 1958.

## SELECTED SERVICES-SUMMARY STATISTICS

Table B.—ESTABLISHMENTS WITHOUT PAYROLL AS PERCENT OF TOTAL SERVICE TRADE ESTABLISHMENTS BY KIND OF BUSINESS—UNITED STATES: 1958

| Kind of business   | Establishments without payroll                    |                                       |
|--|---|---------------------------------------|
|  | Establishments as percent of total establishments | Receipts as percent of total receipts |
| Selected services, total . . . . .   | 54.6  | 10.4                                  |
| Hotels, motels, tourist courts, camps, total . . . . .                     | 43.5  | 7.2                                   |
| Hotels . . . . .   | 29.1  | 2.5                                   |
| Motels, tourist courts . . . . .   | 48.4  | 17.4                                  |

\*Data for establishments with no payroll are excluded; such establishments are included only at the next broader kind-of-business level.

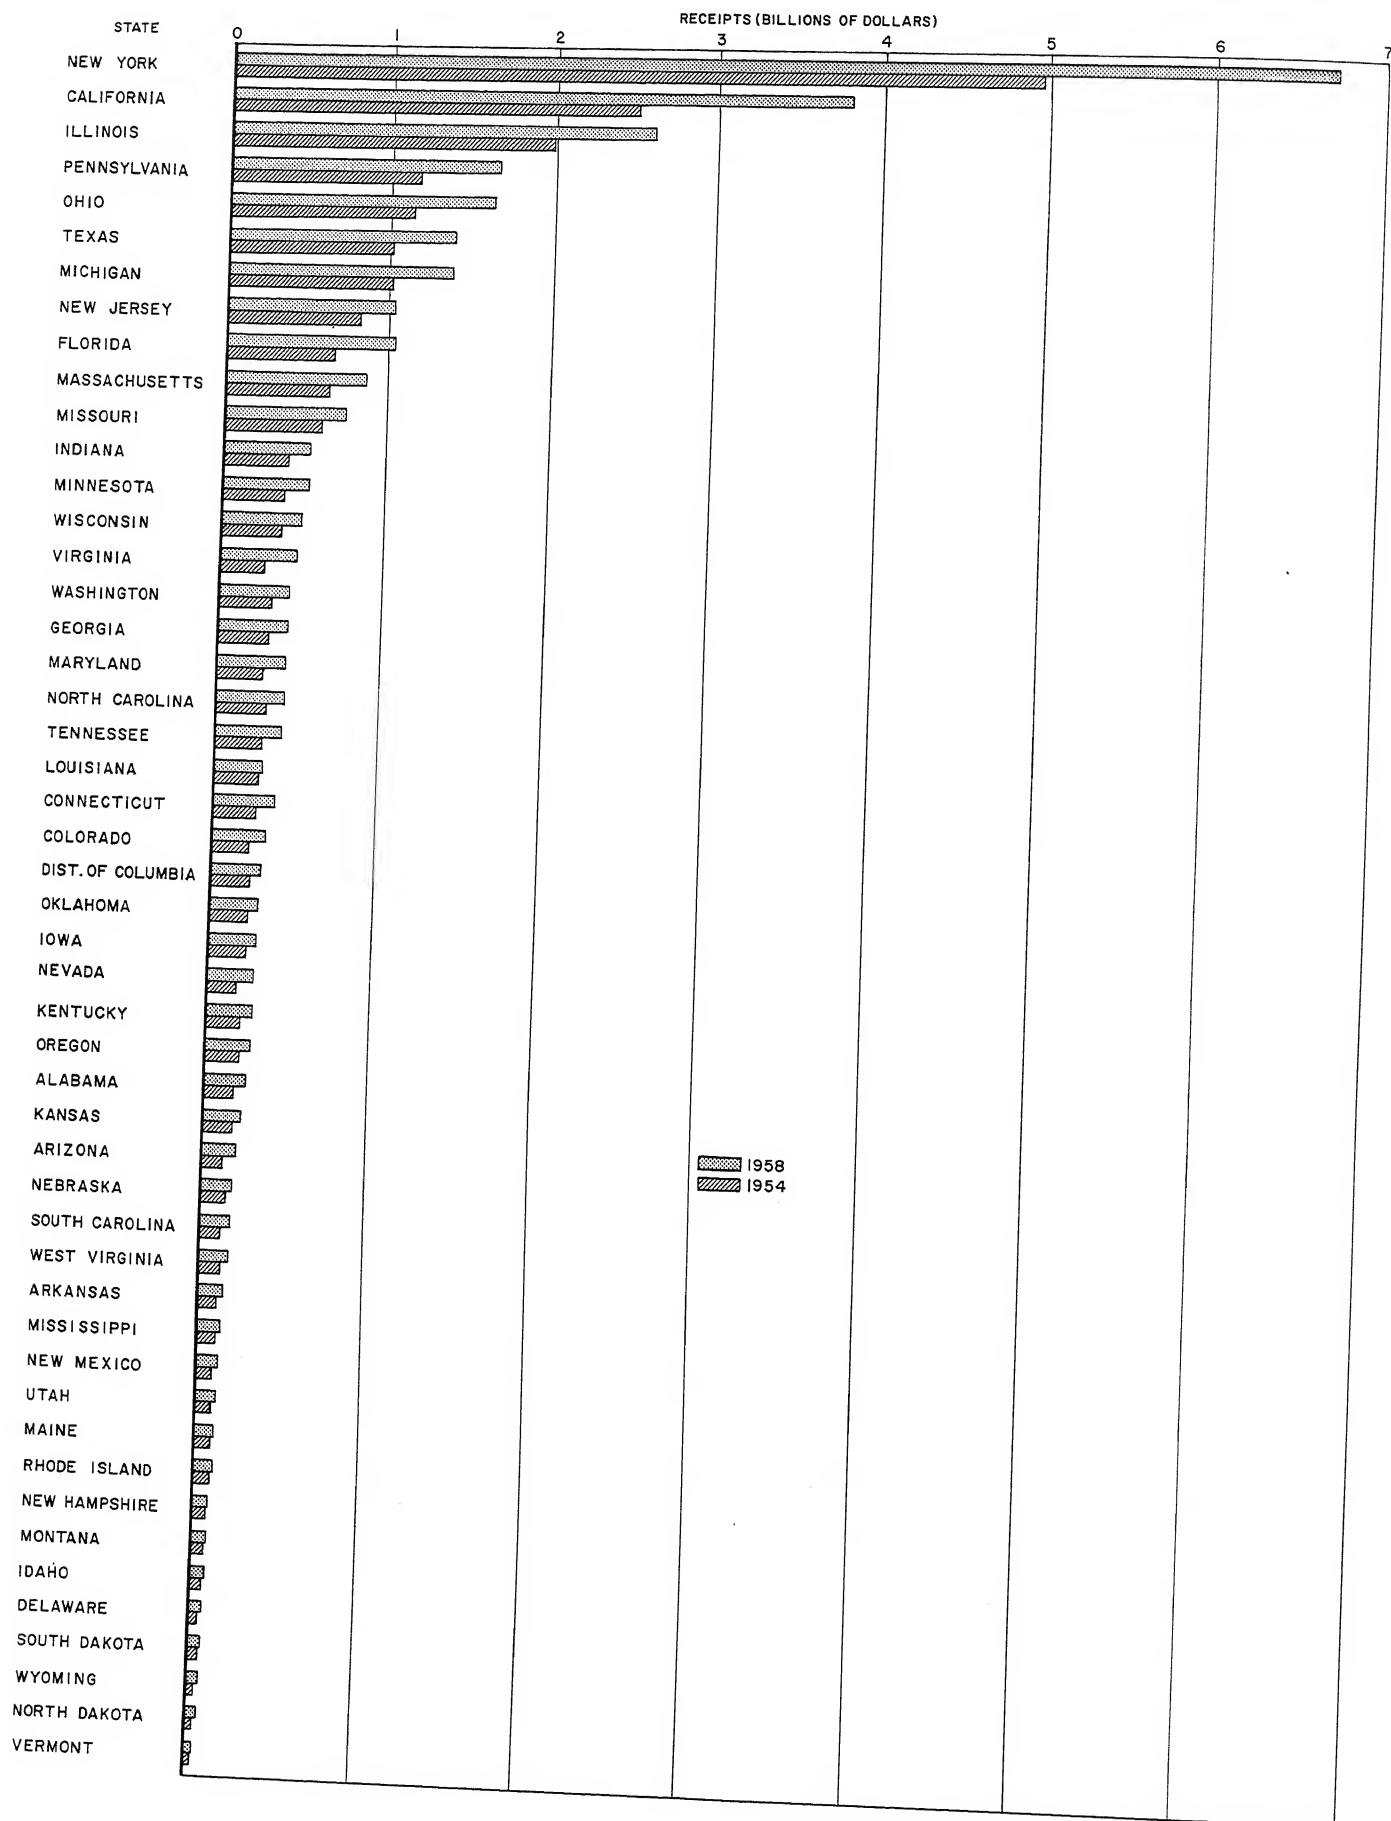

increases outside the central cities were considerably larger than the central city increases. In the Detroit, Mich., area, nearly all the increase took place outside the central city; however, in the Boston, Mass., area, the increase outside the central city was only slightly larger than that in the city—22.4 and 21.5 percent, respectively.

For the auto repair, auto service, garage group, the pattern of increases in receipts was substantially the same as for the personal services group, except that the per-

centage increases were considerably higher. There were four SMSA's in which the increases in the central cities were higher than the increases outside the central cities. These four SMSA's were Baltimore, Md., with percentage increases in the city and outside of 78.7 and 39.8, respectively; Boston, Mass., with increases of 77.4 and 58.8; Cleveland, Ohio, with 105.8 and 104.5; and Miami, Fla., where the increases were 85.0 and 40.7. Total receipts for the group in two SMSA's, Atlanta, Ga., and Cleveland, Ohio, more than doubled during the period, as did the receipts for the central cities and areas outside the cities.

Figure 1.—SELECTED SERVICES: 1958 AND 1954—RECEIPTS BY STATE

## SUMMARY OF FINDINGS

7

Table E.—STATES RANKED BY PERCENT CHANGE IN SERVICE TRADE RECEIPTS FROM 1954 TO 1958

| Rank | State                    | Percent increase in receipts 1954 to 1958 | Service receipts percent of U.S. total |      | Rank | State                          | Percent increase in receipts 1954 to 1958 | Service receipts percent of U.S. total |      |

## PER CAPITA EXPENDITURES BY KIND OF BUSINESS

In addition to the evidence of growth reflected in the large increase in total receipts in 1958 over 1954, a further indication of the growth of different selected services in the national economy can be obtained by comparing per capita expenditures for selected kinds of business in 1958 with 1954. The total receipts of those kinds of business within the scope of the Census whose receipts substantially represent expenditures by consumers amounted to \$21 billion, representing a per capita expenditure for the United States of \$120.58 in 1958. This compared with the per capita expenditures of \$100.79 for the same kinds of business in 1954.

In general, per capita expenditures in the kinds of business shown separately in table I increased significantly between 1954 and 1958. Part of the difference in expenditures between the two periods, of course, reflects changes in price level. As can be seen from table I, there were some

important categories which showed only slight increases or actually decreased since 1954.

Personal services was the most important single group in both 1958 and 1954, with per capita expenditures of \$42.48 and \$35.81, respectively. All important kinds of business in this group showed increases during the period, with one exception, "pressing, alteration, garment repair shops," which dropped from \$2.55 in 1954 to \$2.20 in 1958.

The auto repair, auto services, and garages group with per capita expenditures of \$22.14, accounted for more than one-fifth of the service dollar. This represented an increase of 60.6 percent over the \$13.79 expended in 1954. Another important part of the service dollar was spent for "amusement, recreation services, except motion picture theaters." Consumers spent an average of \$15.29 in businesses classified in this category, an increase of 22.9 percent over the \$12.44 spent in 1954. However, per capita expenditures in motion picture theaters dropped during the period; 26.4 percent in "motion picture theaters, except drive-in," and 5.0 percent in drive-in theaters.

<sup>1</sup>Per capita figures based on Census of Business data for 1958 and 1954 and Census population estimates for the same years.<sup>2</sup>Minus sign denotes decrease.<sup>3</sup>Data for 1958 and 1954 are not completely comparable. See kind-of-business definitions for explanation of differences.<sup>4</sup>Includes taxes.

Figure 2.—SELECTED SERVICES: PER CAPITA EXPENDITURES, BY KIND OF BUSINESS—UNITED STATES: 1958 AND 1954

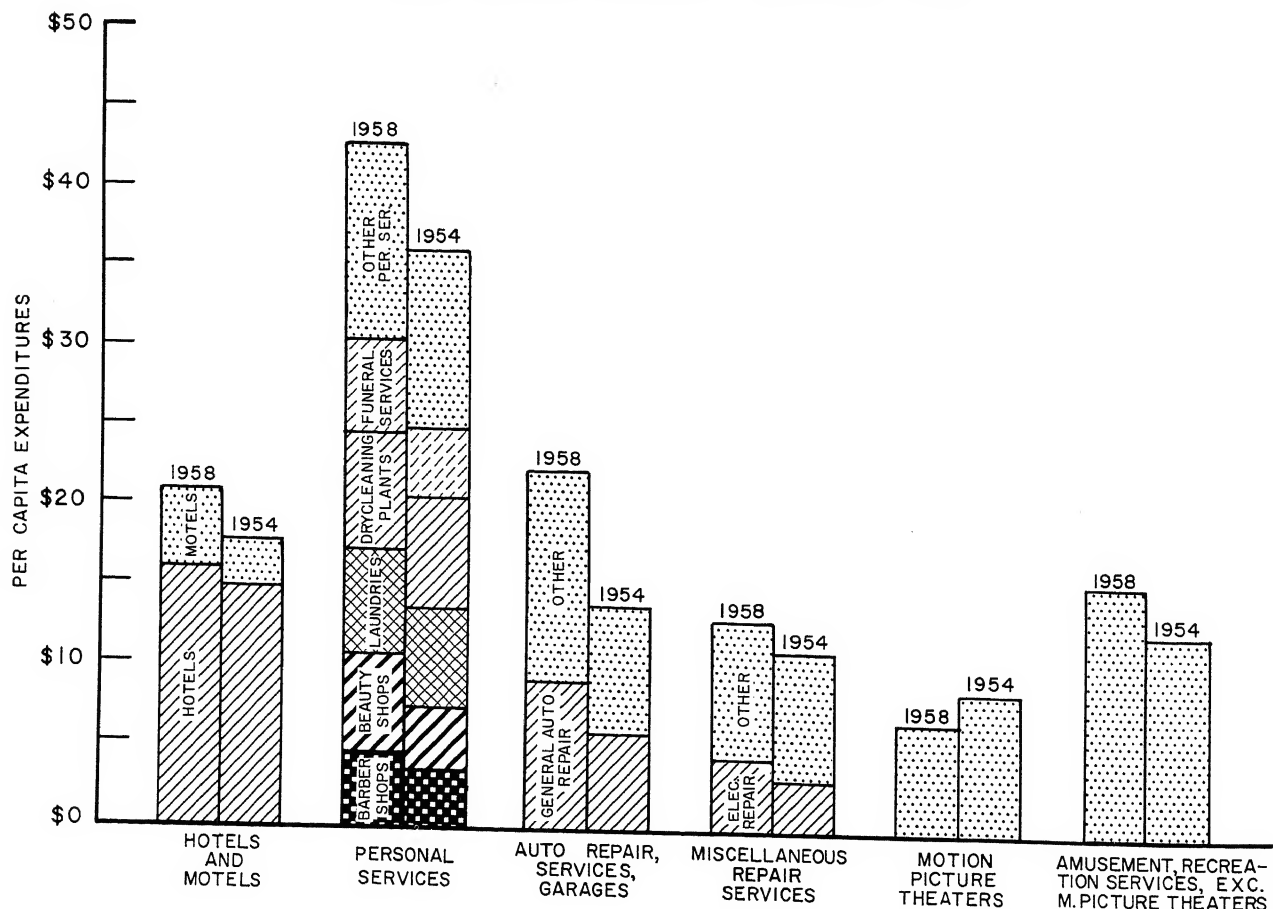

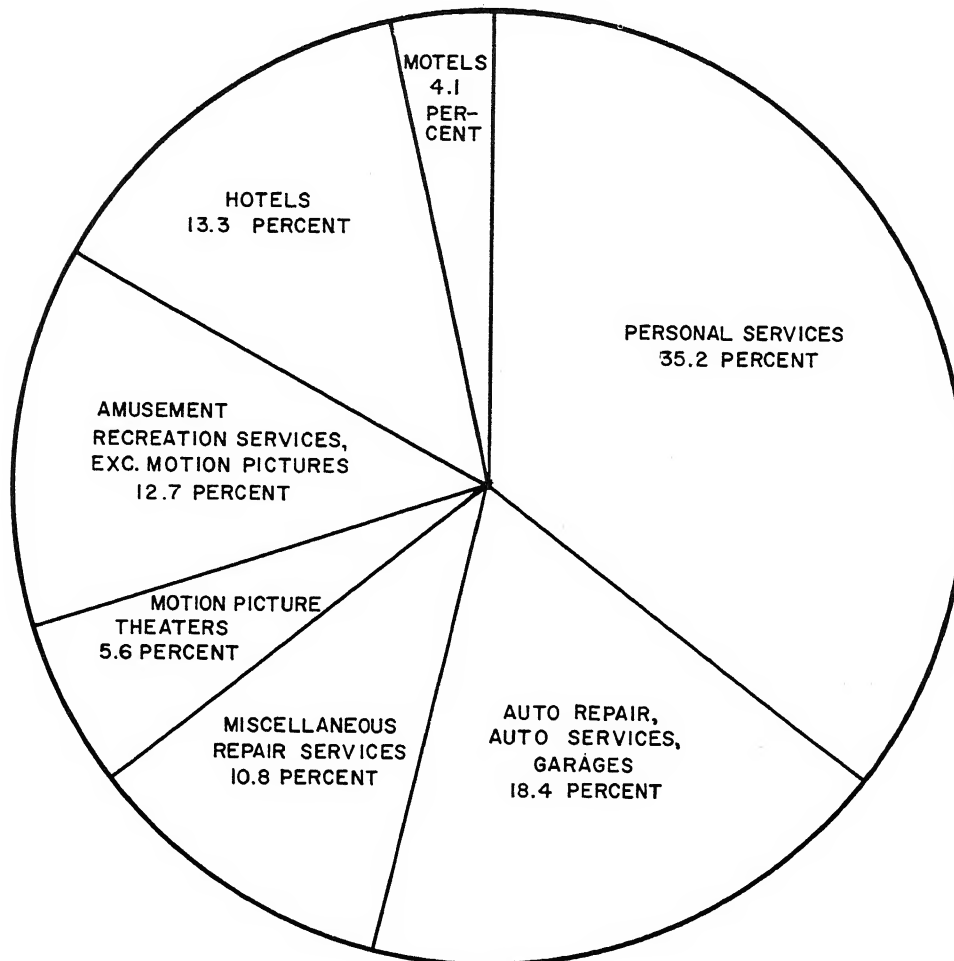

Figure 3.—PER CAPITA EXPENDITURES BY KIND OF BUSINESS AS PERCENT OF TOTAL SELECTED SERVICES EXPENDITURES—UNITED STATES: 1958

#### PER CAPITA PERSONAL SERVICE EXPENDITURES BY STATES

Per capita expenditures for personal services by States varied from a high of \$81.27 in the District of Columbia to a low of \$23.20 in North Dakota (see table J). The average for the country as a whole was \$42.48. In addition to the District of Columbia, there were 10 States with a higher per capita expenditure in this kind-of-business group than the national average.

The leading States, in order of their 1958 rank, were Nevada, New York, Illinois, California, and New Jersey. These five States were also the highest in the 1954 and 1948 Censuses, but in 1954 and 1948 New Jersey was ahead of California, and in 1948 New York and Illinois were ahead of Nevada.

The largest increase in 1958 over 1954, 37 percent, was in Vermont. This State also registered a very large increase from 1948 to 1954. The smallest increases, between 1954 and 1958, occurred in Michigan and Rhode Island, 7 and 9 percent, respectively.

## WEEKLY EMPLOYMENT AND PAYROLL

Weekly payroll data for full workweek employees for the week ending nearest November 15 are presented for selected kinds of service businesses in table K. The highest weekly compensations were received by employees engaged in motion picture production, distribution services, \$151; advertising agencies, \$139; research, development, testing laboratories, \$119; and business, management consulting services, \$118. It should be noted that these kinds of business are not engaged in direct service to the consumer as are most other selected services covered by the census. Employees engaged in "theatrical presentations, services," "commercial sports," and "miscellaneous repair services" also received higher than average weekly compensation. The averages for these groups were \$102, \$85, and \$78, respectively. At the lower end of the scale were employees of billiard and pool parlors, and bowling establishments with an average weekly wage of \$39, and employees of motion picture theaters with \$41.

Most of the kinds of selected services presented in this table showed increases in weekly compensation in 1958 over the similar week in 1954, although some of the increases were not very high. The largest percentage increase was for employees of bowling establishments, 21.2 percent, while advertising agencies increased 10.3 percent. The average weekly compensation of employees in the auto repair, auto services, garages group did not change over the period, while compensation in the amusement, recreation services, except motion pictures group actually registered a small decrease.

## PAYROLL TO RECEIPTS RATIOS

Almost one-third of the total receipts of the Selected Service establishments in the census were returned to the employees of these establishments as wages and salaries (see table L). This compared to the ratio of payroll to receipts for retail trade of 11.5 percent, and for merchant wholesalers of 6.8 percent.

... Represents zero. (NA) Not available.

<sup>1</sup>Minus sign denotes decrease.

From the data in this table, it is obvious that for nearly all the selected services analyzed, the payroll constitutes probably the most significant part of business expense. There are two important exceptions, "advertising agencies" and "auto, truck rentals, and lease services," with payroll to receipts ratios of 10.6 and 16.7, respectively. In both of these kinds of business the equivalent of "cost of goods sold" in retail and wholesale trade is an important factor. The receipts of advertising agencies include media costs, and the receipts of "auto, truck rentals, and lease services" include the costs of the cars and trucks which are rented or leased. In both "services to dwellings and

other buildings" and "power laundries" payroll accounted for more than one-half of the total receipts, 54.7 and 53.4 percent, respectively.

## RECEIPTS SIZE (Tables in Chapter 2)

The receipts-size analysis of establishments in the 1958 Census is shown only for establishments which were operated for at least 10 months during the year (for Census purposes considered to have been "operated entire year") and which were in business at the end of the year. Also in-

(NA) Not available.

cluded in the category "operated entire year" are seasonal businesses which normally are not open the entire year. These statistics are based on the individual establishment or unit, rather than the company or firm. In those kinds of business where there are a significant number of firms operating establishments at more than one location, such as hotels, motion picture theaters, or advertising agencies, receipts-size statistics based on a firm or company basis would vary considerably from those based on size of the individual establishment. The statistics on receipts size are presented in chapter 2 of this volume.

Less than 1 percent of the Selected Services establish-

ments had receipts during 1958 of \$500,000 or more, but these establishments accounted for 34.3 percent of the total service receipts (see table M). More than one-half of the total receipts, 57.2 percent, came from only 4.5 percent of service establishments, those with receipts of \$100,000 or more. On the other hand, 52.0 percent of the establishments had annual receipts of less than \$10,000, but they accounted for only 6.7 percent of the total receipts. In 1958, compared with 1954, there was a slightly higher percentage of the number of establishments in the higher brackets and a corresponding increase in the receipts for these groups.

| \$5,000 to \$9,000. . . . .                          | 21.2             | 22.6  | 16.5                         | 4.3              | 5.0   | 18.3                         |
| \$3,000 to \$4,000. . . . .                          | 15.6             | 17.2  | 12.4                         | 1.6              | 2.0   | 12.6                         |
| \$2,000. . . . .                                     | 9.9              | 10.5  | 17.8                         | 0.6              | 0.7   | 17.8                         |
| Less than \$2,000. . . . .                           | 5.3              | 5.7   | 15.5                         | 0.2              | 0.2   | 15.8                         |
| Establishments not operated entire year. . . . .     | 6.7              | 4.8   | 74.8                         | 5.1              | 3.5   | 99.0                         |

Table N presents receipts-size distribution for selected kinds of service businesses. As pointed out previously, there is a predominance of "small businesses" in the service trades (52 percent of all establishments have annual receipts of less than \$10,000). There is an even greater predominance of small businesses in those services such as barber and beauty shops, shoe repair shops, and pressing, alteration, and garment repair establishments where comparatively little investment in merchandise or equipment is required. Larger receipts-size establishments are more typical of such kinds of business as power laundries, motion picture theaters, motion picture production and distribution services, and hotels.

For advertising agencies, 37.6 percent of the establishments with annual receipts of \$100,000 or more account for 97.8 percent of the total receipts. Similar data for research, development, testing laboratories are 25.8 and 92.3 percent, respectively; for motion picture production, distribution, services, 30.6 and 96.3 percent; and for hotels, 30.1 and 89.1 percent. At the other end of the scale, barber shops and beauty shops had more than 99 percent of their establishments in the less than \$10,000 per year category accounting for 98 percent and 89.2 percent of the total receipts of each of the respective kind of business.

## EMPLOYMENT SIZE (Tables in Chapter 3)

More than 50 percent of the service establishments included in the Census had no paid employees in 1958 (see table O), but these establishments accounted for only 10.8 percent of the total receipts. On the other hand, the number of service establishments with 100 or more paid employees was less than one-third of 1 percent of the total, but they accounted for 20.6 percent of the total receipts.

The kind of service businesses having the greatest proportion of establishments with 100 or more employees were hotels, advertising agencies, linen supply establishments, and power laundries (see table P).

## SINGLE UNITS AND MULTIUNITS (Tables in Chapter 4)

In general, multiunit operation is not a characteristic of service businesses. In 1958, 95.2 percent of all service establishments were operated by companies which operated only a single establishment, almost unchanged from the 95.5 percent in 1954 (see table Q). Companies operating 11 or more establishments in the same general kind of business accounted for 1.5 percent of all service establishments, the same percentage as in 1954. Although the pro-

portions of establishments and receipts in each of the size groups varied very little from 1954 to 1958, there were substantial increases in the number of establishments and total receipts of each size group.

Table R presents the distribution of single unit and multiunit establishments and receipts for selected kinds of service businesses. Multiunit operation is most important in the operation of motion picture theaters, in which kind of business 47.6 percent of the theaters, accounting for 66.6 percent of total motion picture theater receipts, were operated by multiunit companies. Other service businesses in which multiunit operation was important were linen supply establishments; research, development, testing laboratories; motion picture production, distribution services; and hotels. For advertising agencies, only 6.4 percent of the establishments were operated by multiunit companies, but these establishments accounted for 56.3 percent of the receipts of all advertising agencies.

## LEGAL FORM OF ORGANIZATION (Tables in Chapter 5)

Four-fifths (80.6 percent) of all Selected Services establishments in the Census were operated by individual proprietorships and another 9.9 percent by partnerships (see table S and figure 4). Corporations accounted for 9.3 percent of the total establishments, and there was an insignificant proportion of other legal forms (0.2 percent), such as cooperatives, estates, receiverships, joint ventures, etc. In terms of volume of receipts, however, the pattern was different. Individual proprietorships accounted for only 31.8 percent of the total service receipts,

and partnerships, 12.2 percent, whereas the receipts of corporations were 55.4 percent of the total.

Contrary to the general pattern, in some service kinds of business, individual proprietorships accounted for the greatest portion of the receipts (see table T). In barber shops they accounted for 87.7 percent of the total receipts; in shoe repair shops, 82.1 percent; in watch, clock, jewelry repair, 78.7 percent; and in pressing, alteration, garment repair, 78.0 percent.

The corporate form of organization predominated in motion picture production, distribution, services, 96.5 percent of receipts; miscellaneous business services, 76.9 percent; and hotels, 72.2 percent.

## HOTELS, MOTELS, AND TOURIST COURTS (Tables in Chapter 6)

The comparison of percentage distribution of sources of receipts of the larger hotels and motels, as shown in table U, illustrates the differences in their operation. It should be noted that the receipts from meals and alcoholic beverages included in these tables are limited to those from restaurants and bars owned and operated by the hotel or motel at the establishment location. The receipts from restaurants and bars operated in the hotels and motels as concessions are not included in the Selected Services Census, but are counted as separate establishments in the Retail Trade Census.

In 1958, in hotels with 25 or more guest rooms, more than one-half of the receipts came from those with less

## SELECTED SERVICES-SUMMARY STATISTICS

| Family and bachelor laundry work . . . . .       | 9.5   | 60.2                      | 6.0   | 63.8                      |
| Other sources . . . . .                          | 2.4   | 21.0                      | 2.1   | 17.0                      |

<sup>1</sup>Of which 16.3 percent in 1958 and 11.1 in 1954 was commercial starch and flat work.

than 70 percent occupancy, a large increase over the corresponding percentage of 41.7 in 1954 (see table V). Hotels with 70 to 79 percent of occupancy accounted for 28.0 percent of all hotel receipts in 1958, and this group also had the largest average receipts per hotel of the six groups shown in the table. Only 4.1 percent of the hotels had more than 90 percent occupancy during 1958, compared with 8.9 percent in 1954. The average size of these hotels, \$138,000, was well below the average size of all hotels, \$243,000.

#### POWER LAUNDRIES AND CLEANING AND DYEING PLANTS (Tables in Chapter 7)

Almost 10 percent of the receipts of cleaning plants in 1958 were from family and bachelor laundry work, as compared with 6 percent for this type of work in 1954 (see table W). On the other hand, receipts for cleaning work done in laundries accounted for over 10 percent of their receipts. In 1958, 88.1 percent of the receipts of cleaning plants were from dry cleaning work, whereas 76.5 percent of the receipts of laundries were from a combination of family and bachelor work and commercial starch and flat work. The corresponding percentages in 1954 were 91.9 percent and 74.9 percent, respectively.

Table X.—DELIVERY METHODS OF CLEANING AND DYEING PLANTS (EXCEPT RUG CLEANING) AND POWER LAUNDRIES—UNITED STATES: 1958

| Method of delivery  | Cleaning and dyeing plants (except rug cleaning)         |   | Power laundries  |   |
|---|--|---|--|---|
|   | Receipts from family and bachelor laundry work (percent) | Receipts from cleaning and dyeing work, exc. rug cleaning (percent) | Receipts from family and bachelor laundry work (percent) | Receipts from cleaning and dyeing work, exc. rug cleaning (percent) |
| Total . . . . .   | 100.0  | 100.0   | 100.0  | 100.0   |
| Retail work, total. . . . .   | 94.3   | 91.2  | 90.7   | 95.6  |
| Retail work delivered to home, hotel, etc. . . . .                  | 33.1   | 35.4  | 50.9   | 55.7  |
| Retail work delivered through plant office or branch store. . . . . | 61.2   | 55.8  | 39.8   | 39.9  |
| Wholesale work. . . . .   | 5.7  | 8.8   | 9.3  | 4.4   |

For cleaning plants, 35.1 percent of their cleaning work and 33.1 percent of their family and bachelor laundry work was delivered by truck directly to the customer's home or place of business (see table X). Power laundry receipts from delivered work was much higher, 55.7 and 50.9 percent, respectively. Most of the receipts of cleaning plants were taken in at branch stores, 55.8 percent of the cleaning work and 61.2 percent of the family and bachelor laundry work. The branch store was less important as a source of receipts of power laundries, although almost 40 percent of their total receipts were from this source. Wholesale cleaning work amounted to 8.8 percent of the total receipts for such work in cleaning plants, while 9.3 percent of the receipts from family and bachelor laundry work in laundries were from wholesale work.

The use of synthetic solvents in cleaning plants continued to increase in importance. In 1958, 35.7 percent of the receipts were from plants using synthetic solvent only, compared to 27.2 percent in 1954 and 17.3 percent in 1948 (see table Y).

Table Y.—TYPE OF SOLVENT USED BY CLEANING AND DYEING PLANTS, EXCEPT RUG CLEANING—UNITED STATES: 1958, 1954 AND 1948

| Type of solvent used                           | Distribution of receipts |                   |                   |

#### MOTION PICTURES (Tables in Chapter 8)

Direct receipts of motion picture producers in 1958 amounted to \$252,826,000, an increase of 84.6 percent over the producers' direct receipts of \$136,955,000 in 1954 (see table Z). These receipts include receipts from outright sales of film, from film rentals received directly from exhibitors, and miscellaneous receipts. Earnings from films which are distributed by film exchanges, whether independent or producer owned, have not been included with receipts of film producers. Such receipts have been included under "film exchanges." Only those producers' receipts from studio rental, laboratory work, and loan of players which were not netted against expenses for these items have been included in receipts.

Receipts from motion picture distribution in 1958 amounted to \$802,240,000, 23.4 percent higher than the \$650,034,000 collected by distributors in 1954. To avoid duplication, this item does not include the reporting company's share of receipts from film rentals collected by others. The bulk of the receipts originated in film exchanges other than for television, but 11.4 percent came from film exchanges primarily distributing films for television viewing. Less than 4 percent of the distributors' receipts were from this service in 1954. Receipts from services allied to motion picture distribution and to motion picture production increased 27.0 percent and 22.3 percent, respectively, over 1954.

Table Z.—MOTION PICTURE PRODUCTION, DISTRIBUTION, SERVICES—UNITED STATES: 1958 AND 1954

| Kind of Business   | Receipts          |                   | Percent change, 1954 to 1958 |

| Motion picture production for television . . . . .         | 96,532            | 61,348            | 57.7                         |
| Motion picture film exchanges, other than for TV . . . . . | 711,064           | 625,982           | 13.6                         |
| Motion picture film exchanges for TV . . . . .             | 91,176            | 24,052            | 279.1                        |
| Services allied to motion picture distribution . . . . .   | 30,303            | 23,870            | 27.0                         |
| Services allied to motion picture production . . . . .     | 163,648           | 133,779           | 22.3                         |

The number of regular indoor motion picture theaters dropped, between 1954 and 1958, from 14,716 to 12,291, a decrease of 16.5 percent (see table AA). At the same time, total receipts dropped 10.5 percent and receipts from admissions, 15.2 percent. The number of drive-in motion picture theaters increased slightly, 3,775 in 1954 to 4,063 in 1958, an increase of 7.6 percent. Total receipts of the drive-ins increased by 2.6 percent, while receipts from admissions increased 8.0 percent. The change in the Federal admissions tax rate since 1954 is reflected in the figures for the amount of admission taxes collected by the theaters. In 1954, taxes accounted for 9.4 percent of the total receipts and 11.9 percent of the receipts from admissions; in 1958, taxes accounted for only 2.2 and 2.6 percent, respectively.

In 1958, 10,838 motion picture theaters with payroll, whose total receipts from customers amounted to \$920,773,000, 79 percent of the total receipts of all motion picture theaters, reported information on number of admissions, showings, and capacity. For those theaters which reported such data, table AB presents the average receipts from customers per theater, the average number of paid admissions, the average number of showings, and the average capacity. It is seen that all averages, with the exception of average theater capacity, have dropped since 1954.

The average price per admission to indoor motion picture theaters for the Nation as a whole was 63 cents after deducting admission taxes (see table AC). This compared with the average of 49 cents in 1954 and the average of 36 cents in 1948. For drive-in theaters the average admission price per person was a little less, 60 cents, compared with an average of 54 cents in 1954. Geographically, the District of Columbia had the highest average admission price, 83 cents, with California close behind with an average admission price of 81 cents. In general, the lowest prices prevailed in the Southern States, with Alabama averaging 34 cents per person and North Carolina, 38 cents.

## SELECTED SERVICES-SUMMARY STATISTICS

V Data not shown because of insufficient analysis of receipts.

<sup>1</sup>No drive-in theaters.

# LIST OF CORRECTIONS

Volume V has been prepared primarily by assembling and binding the tabular portions of previously issued subject reports together with a miscellaneous chapter not issued in report form. This plan was adopted to reduce publication costs and to expedite issuance of the data. The data appearing below represent revisions made after reports were issued. They should be taken into consideration in using not only Volume V but the subject reports from which it was assembled.
